

**TOWN OF PERALTA, NEW MEXICO  
APPLICATION FOR SEWER SERVICE  
PROPOSED LOCATION FOR SERVICE COMPONENTS**

**INSTRUCTIONS**

Provide a sketch of the property to be served and the desired location of the Grinder Pumping Unit, Pressure Service Line, and Control Panel. Describe where wells, water lines, all buried utilities such as gas lines, sprinkler lines, etc..... Contact the Utilities Director for an onsite review of the sketch and obtain concurrence prior to submitting application. The Utilities Director is available to provide assistance in the preparation of this sketch. The Gravity Service Line must be uncovered near the point the connection is to be made prior to the on-site review.

**SKETCH**
